

2018 Emscote Sports Day

Tuesday the 4th July was Emscote's Annual Sports morning at All Saint's track and field. We were certainly lucky with the weather, such a perfect day for lots of sporting fun! Like previous years our sports day had a World Cup theme with all the children placed in twelve teams representing different countries that were playing in the competition. Some of the chosen countries were also linked to the current Erasmus Project that both schools are involved in.

Each team was led by a member of staff and stayed together to complete up to six exciting field events and then the children re-joined their classes to complete track events including sprinting, egg and spoon and obstacle relay. The shared picnic lunch back at Emscote was a great success too with parents enjoying time with their children and looking through their child's learning books.

Team Greece involved in their warm up before starting the field events!
