

Weekly Topic Tasks for Reception

Monday	Draw a design of your alien that you are going to make. Label your design, using as many sounds as you can. Don't forget to colour it in!	
Tuesday	Using the junk modelling items that you have been collecting, make your alien. Don't forget to follow your plan carefully and really try to make it look like your plan.	
Wednesday	<p>If you have paint at home, you can paint your alien or use felt tips or smalls pieces of paper to decorate it. Don't forget you could put a picture of your completed design and model on Tapestry for us to see!</p> <p>(Parents, if you have any problems accessing Tapestry, please email: admin2332@welearn365.com for the attention of Mrs Fawbert and the Reception Staff will do their best to help you. You can download the Tapestry app onto your mobile phone.)</p>	
Thursday	Can you draw and cut out or make using playdoh 10 aliens? Then use these to make number bonds (i.e. all the pairs of numbers that make 10)	For example: $0 + 10 = 10$ $1 + 9 = 10$ $2 + 8 = 10$ $3 + 7 = 10$ $4 + 6 = 10$ $5 + 5 = 10$

	Whenever you get a spare moment over the next few weeks, can you practice telling your grown ups the pairs that make 10 or even write the number sentences? (Don't forget you can use your aliens to help you!)
Friday	Can you make up a story about your alien model that you made earlier in the week? (You don't need to write your story down, just tell it to a grown up).
