

# The Reception Round-up!

Some of the lovely things we have been learning this week: SO proud of everyone's hard work! 🍌🍌🍌🍌🍌

We are excited to see some very special creations of Crowns and cakes next week! We hope you have fun Making them and that this fun provides the children With some wonderful memories of the Jubilee.

## Maths:

Next week we will be learning about addition. We will carry out lots of practical activities relating to this and having a go at writing number sentences, too!

## Phonics:

We have been learning a few of the trickier sounds such as **-ture** and **-ure**. For example, picture and sure. The children may enjoy writing a list of each for you at home!

## Topic:

Next week we will be doing some simple recount writing about our trip to Brandon Marsh and also lots of Queen Jubilee activities!

## Geography

Instead of Wonderful Wellies, we have been in class for those sessions, carrying out some map skills work instead, following on from our local walk a few weeks ago. The children are creating a map next week!

## **What's going on this week/notices/information:**

**Willow class assembly:** We hope you enjoyed their assembly. We felt so proud of them and the children were so excited to share it with you!

**Trip to Brandon Marsh:** We are very excited about our trip to Brandon Marsh on Monday. Please send your child wearing their school uniform and a rain coat. It is apparently quite boggy at Brandon Marsh so may be sensible for the children to wear wellies. They will need a named water bottle and named lunch box (unless you opted for them to receive a school packed lunch). During the day, the children will be split into 4 groups and rotate with their group around four 45-minute-long activities that will be led by the Brandon Marsh experts. 'Duck Tales', 'Bugs and Bees', 'Prickly Friends' and 'Magical Forests'. The coach is due to leave school at 9.25 and return at 2.45pm. Let's hope the sun shines!
