

The Reception Round-up!

Some of the lovely things we have been learning this week: SO proud of everyone's hard work! 🍌🍌🍌🍌🍌

Maths:

Next week we will be teaching the children about 3D shapes – cube, cuboid, sphere and cylinder. If you have everyday items at home that are these shapes, please talk to your child about them and see if they can name the 3D shape.

Phonics:

Sounds

tch

nk

They will learn the **tch** and **nk** sounds. They will read and write words with them in and sentences too.

Water play:

We have a wonderful new cascading water play 'station' but could really benefit from some nice waterplay toys for the children to play with in it. If you have any your child no longer plays with, that are in good, clean condition, we would gratefully receive any! Or plastic jugs, cups, funnels, water mill, boats etc.

Topic:

In keeping with our topic on changes and growing, we will be learning about the artist Van Gogh and his famous 'Sunflowers' work. We are very proud of how well our beans are growing, please have a look at our classroom windows!

What's going on this week/notices/information:

Names in jumpers/cardigans: Please check your child's jumper/cardigan as we currently have more without names than with! The names do fade or wash out after a while so please re-check and make them really clear. Especially now the warmer weather is here and they are taking them on and putting them on again frequently. Thank you!

Easter Bonnet Parade

On the last day of term we are going to hold an Easter Bonnet parade for Reception! We will hold this on the playground at **2.40pm** so that you can then stay to collect your child. This will also be their homework next Thursday but I wanted to give you a little longer as we would really like for every child to make one. If you have any difficulties please get in touch with us.
