

The Reception Round-up!

Some of the lovely things we have been learning this week:

This week we have been learning about the life cycle of a chick and enjoying seeing our eggs hatch! We have been writing about them and making some chick crafts. We are looking forward to holding the chicks when they are a bit stronger next week!

Some of the things that children might experience next week:

Next week we will begin our Space topic, 'Zoom, rocket, zoom!' We are excited to use our new role plays, make space crafts and it is also Science Week too!

We will have 3 science lessons with other teachers and learn about floating/sinking, adsorption/waterproofing and colours all around us.

How you can help your child at home:

Please continue to practise writing with your child. Please encourage them to write about anything and everything, remembering to carefully listen to all the sounds in the words, form their letters correctly and remember finger spaces! ☺ Please ensure your child gets used to writing each letter close to each other within their words and then leaves a clear finger space.

Sounds we have learned this week:

Sounds we will be learning next week:

Consolidation of sounds so far.

What's going on next week/notices/information:

- Science Week!
- Thursday 5th March is World Book Day and the children are invited to dress up as their favourite book character or wear non-uniform. Can they bring in their favourite book too please?
- This week we have introduced a few activity times where the children can 'free flow' between the shared area, Willow or Cherry class. They have really enjoyed it! Each week they have one session with their colour group in the shared area, one session doing Wonderful Wellies and one in the outside area'. The others are open to 'free flow'!
